## Executive Summary

Frontend developer with expertise in React.js, JavaScript, and modern web technologies. Builds production-ready web applications, including **ElanCart**, an e-commerce platform. Completed a professional React internship at **Softek Square Pvt. Ltd.** Passionate about creating scalable, user-centric web applications and contributing to innovative development teams.

## Technical Skills

Languages	: C, Python, JavaScript, Java
Frontend	: HTML5, CSS3, Bootstrap, React.js, Material UI
UI/UX Design	: Figma
Tools	: VS Code, Android Studio
Version Control	: Git
Platforms	: GitHub, Vercel, Netlify, Render
Database	: MySQL, MongoDB

## Soft Skills

- Self-learning
- Problem understanding
- Adaptability
- Discipline

## Internship

React Intern – Softek Square Private Limited	(Tiruchendur, Tuticorin)	September 2025 – October 2025
<ul style="list-style-type: none"><li>• Completed a structured, task-based internship focused on mastering front-end development using <b>React.js</b>, HTML5, CSS3 and JavaScript (ES6).</li><li>• Built multiple mini-projects covering DOM manipulation, API integration, state management, and responsive UI design.</li><li>• Gained hands-on experience in building scalable, component-driven applications with React Hooks, Context API, and Material UI.</li><li>• Completed the final capstone project <b>"ElanCart"</b>, a responsive React e-commerce front-end, hosted live on Netlify.</li></ul>		

## Education

Jeppiaar Engineering College (Anna University)	Chennai, India
B.E. CSE (Hons. in AI & ML) — CGPA: 8.16	2022 – 2026 (Expected)

## Projects

ElanCart – Responsive E-commerce Front-end	React.js   Context API   Material UI	<a href="#">Live Site</a>   <a href="#">Source Code</a>
<ul style="list-style-type: none"><li>• Planned and built a modern, responsive e-commerce web app using <b>React.js</b> with modular components and Context API for global state management.</li><li>• Integrated features such as product listing, dynamic product details, cart and wishlist management, and a checkout flow with a placeholder payment system.</li><li>• Integrated mock APIs using Axios and styled components with Material UI and CSS Modules.</li><li>• Deployed the project on Netlify ensuring optimized build performance and mobile-first design.</li></ul>		
FinTraQ – Financial Tracking Web App	React   FastAPI   MongoDB   Tailwind CSS	<a href="#">Live Site</a>   <a href="#">Source Code</a>
<ul style="list-style-type: none"><li>• Engineered a full-stack financial tracking application with <b>React (frontend)</b> and <b>FastAPI (backend)</b>.</li><li>• Executed income/expense management, category-based tracking, and monthly analytics dashboards.</li></ul>		

- Secured backend with JWT authentication and connected to **MongoDB** for scalable data storage.
- Created a responsive UI using Tailwind CSS for seamless accessibility across devices.

### UPI Payment Alert System – Android App

*Android Studio | Java | Notification Listener | TTS*

[Source Code](#)

- Built an Android app that converts UPI payment SMS and notifications into real-time voice alerts.
- Applied notification listener and SMS parsing to detect UPI payments from all major apps.
- Integrated **Text-to-Speech** API to announce payment amounts automatically.
- Developed a simple and intuitive interface for payment history and notification control.
